

# TECHNICAL DATA SHEET: FB BALL JOINT

Ø mm	Flat edge (nom. mm)	Height mm	Width mm	Galvanised Steel Thickness mm	Weight kg
100	6	325	210	1.5	0.6
125	6	310	210	1.5	0.7
150	6	300	265	1.5	1.1
160	6	300	265	1.5	1.1
200	6	375	365	1.5	1.8
250	6	380	365	1.5	2.3
300	6	490	445	2.0	3.3

**Ends:** 6 mm turned out edge (FB)

## Compliance / Rating of Product Components

Product	Material	Compliance / Rating
FB Ball Joint	Aluminium	1050 / O condition H12 Conforms to European certification BSEN485
FB Nipple	Galvanised	DX51D with Z275 Coating

## Temperature Rating of Product Components

	FB Ball Joint
+80°C	Galvanised Steel / Aluminium
-20°C	

## Additional Notes

To have movable connection between duct and PU-Hose. The ball joint can rotate 360°, with an average angle from centreline of 26°.

Recommended max. service temperature is +80°C.
